WORLD'S BEST ODOR CONTROL SYSTEM

Continuous fresh scent & odor control

- ✓ Reliable
- ✚ Effective
- \$ Economical
- 🛡 Safe
- 🌿 Eco-Friendly

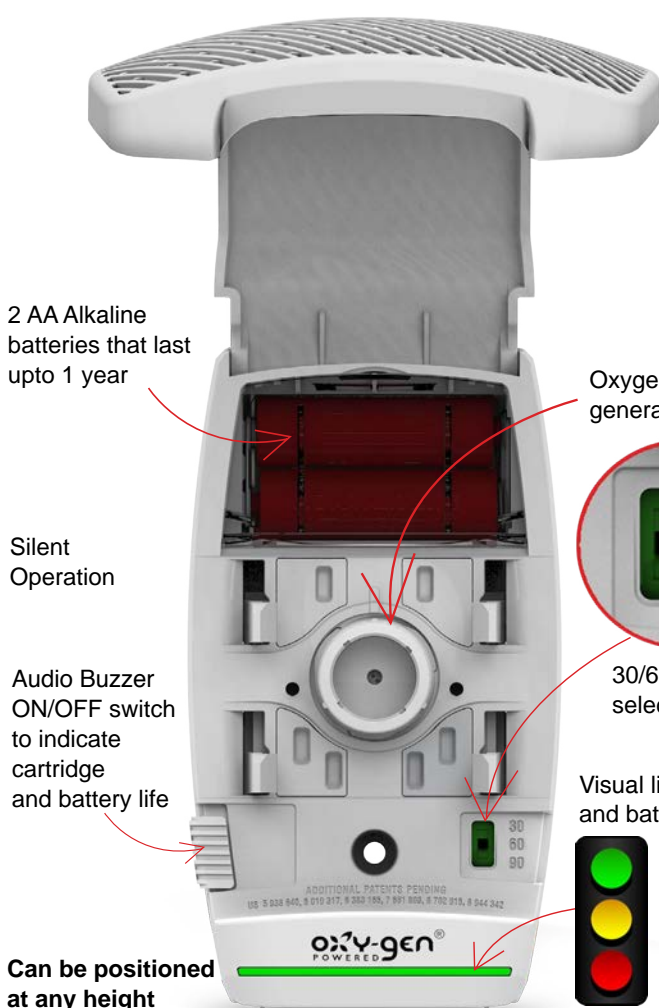

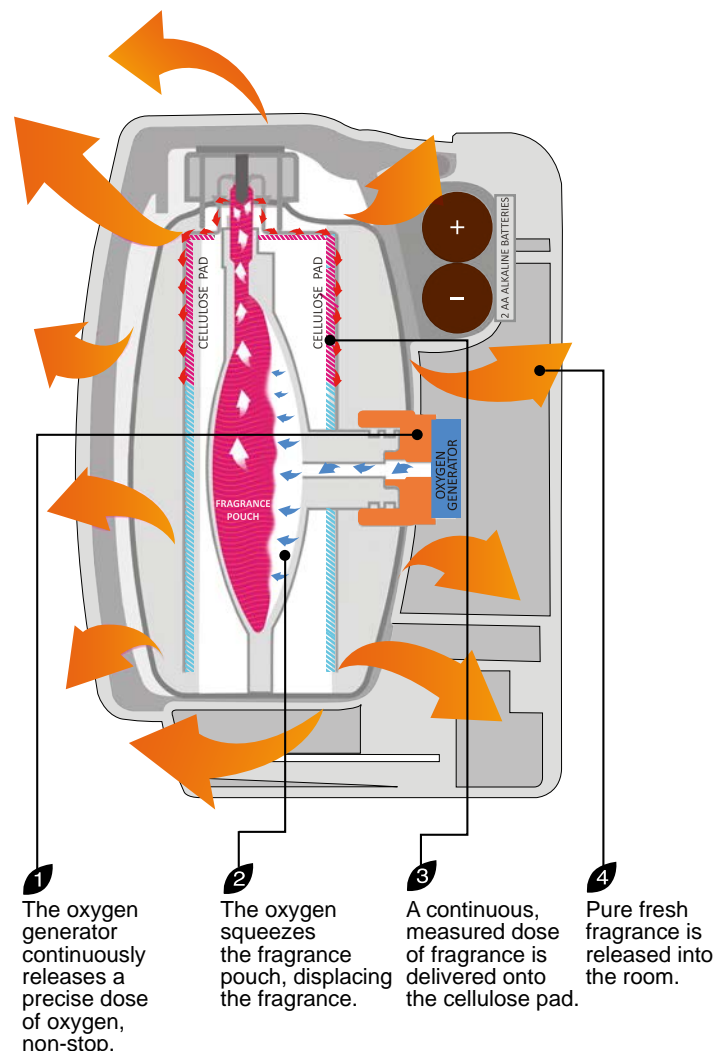

Reliable Performance

Oxy-Gen Powered is the only technology that guarantees the delivery of fragrance in the air continuously, consistently and accurately for the entire duration of the cartridge life.

This precise technology is based on a fuel cell technology that is used in the pharmaceutical industry to deliver drugs to human beings and animals.

Oxy-Gen Powered technology is **simple, reliable and cost-effective.**

Oxygen generator

30/60/90 Days selector switch

Visual light indicators provide cartridge and battery replacement reminders

Dispenser working well

Replace Cartridge

Replace Batteries

“Another great feature of the product is the management and reminder system as it alerts when the cartridge needs to be replaced. One less problem to worry about!”

bloom

An exotic floral scent of night flowering jasmine, orange blossom and gardenia.

crush

An exotic mix of pineapple, tropical fruits and coconut.

glow

Juicy black cherries, with a hint of almond, plum, vanilla and cinnamon spice.

spa

A fresh, invigorating scent with fragrant lavender and spicy herbs.

tang

An intensely fruity perfume with hints of orange supported by warm spices.

One Dispenser...

Oxygen-Pro is the perfect odor control system for any establishment as the user can program the dispenser to work for 30, 60 or 90 days, and can select different fragrance intensity levels with the flexibility of two different cartridge sizes to choose from.

.. and two cartridges

Economical

The **Regular cartridge** works for 30 days and is the ideal choice to replace aerosols, gels, sprays or other passive systems. The cartridge contains 20 ml of pure fragrance oil which amounts to about 4 times more fragrance oil than a standard metered aerosol can.

Lowest Cost-in-use

When using the **Grande cartridge**, the dispenser can be programmed to work for 30 days, 60 days or 90 days. The cartridge contains 35 ml of pure fragrance oil, that is approximately 7 times more fragrance oil than a standard metered aerosol can. The fragrance intensity can be changed to a strong (30 days), normal (60 days) or (90 days) mild scent.

Regular Cartridge
30 Days

Grande Cartridge
30/60/90 Days

The dispenser automatically detects the Grande cartridge and works as per the chosen setting. The Regular cartridge works for 30 days immaterial of the programmable switch position.

The Oxygen-Pro cartridges are available in a wide range of fragrances and are compliant with CARB, EU, IFRA and REACH regulations.

adore

A sophisticated fragrance that combines fresh apple notes with amber and spices.

charm

A fantasy melon fragrance modified with cool green notes, a hint of citrus and a slightly floral background.

spring

Intense floral notes of ylang, lavandin and geranium with hints of fresh cologne and lemon.

zing

A freshly sliced, mouthwatering mandarin fragrance sweetened by lush, juicy orange.

flair

A pure, clean fragrance of delicate florals and watery notes.

Effective Fragrance & Odor Elimination

All Oxygen-Pro cartridges (except Kleer) contain Neutra-lox, a proprietary ingredient that works with fragrance oils on targeted malodors by locking in the malodor molecules, neutralizing them and releasing a pure, fresh scent into the air.

Neutra-lox is extremely effective against the smell of **urine, feces, body odor, tobacco, pet malodor, kitchen odor, mold and mildew, etc.**

neutra-lox malodor eliminator

Unlike other systems that only mask odors, Oxygen-Pro cartridges eliminate odors and release fragrance effectively.

Buzzer Switch

NEW! Specific Malodor Eliminators

For facilities that desire specific malodor eliminators without any fragrance or a very low fragrance, a choice of two new cartridges are available in the Oxygen-Pro cartridge range.

neutra-lox malodor eliminator

An extremely high concentrate of neutra-lox with just a hint of lemongrass fragrance. This is the ideal choice for areas where fragrance is not desired.

kleer natural malodor eliminator

Kleer uses plant oils as the active ingredient to neutralize malodors.

With a blend of 100% plant oils, Kleer is the ideal choice for health care facilities and hotel rooms to eliminate odors without releasing any fragrance.

“Malodors have decreased significantly, leaving a pleasant fragrance surrounding the care home.”

Safe

With **no added solvents** and **no alcohols**, the Oxygen-Pro cartridges contain **100% pure fragrance oil** and are a safe choice for any facility. Since the cartridges are not pressurized containers, they are safe to transport and store.

Eco-Friendly

Unlike aerosols, the Oxygen-Pro system does **not contain any CFCs**, **has no added VOCs or propellants**, no 'spray and fade effect' and 'no noise'. A fresh, constant level of fragrance is released continuously, consistently and discreetly. The cartridges can be safely disposed of in a plastic recycling bin at the end of the cartridge life.

Grande Cartridge
30/60/90 Days

I know the washroom is clean, just because it smells so fresh.

• Malodors are eliminated • Your restroom is left with a clean, fresh scent

Ideal For

Educational Institutes

Health Care

Easy To Install & Service

The dispenser can be easily mounted on the wall using double-sided tape or screws. The simple push and go format ensures that it is easy to replace cartridges or batteries.

	Push the cartridge cap down and twist clockwise, until the cap rotates freely.
	Use the two ribs at the bottom of the cartridge as a guide to slide the cartridge into the dispenser until it locks in place. Close the dispenser cover.
	A flashing green light indicates proper installation.

“Servicing Oxygen-Pro is so easy with no complicated programming. It takes just a few seconds to fit a new cartridge.”
