

VIVA!e™

The Next Generation in Air Freshness

INNOVATION IN THE AIR

continuous
fresh scent &
odour control

oxy-gen™
POWERED

**World's Most Eco-Friendly
Air Freshness System**

VIVA!e™ Air Freshness

The **next generation** air freshener

Viva!E does not use old aerosol or spray technology; it is a new generation of air freshener and the world's first to use new Oxy-Gen Powered technology.

Create the **'WOW'** factor

The Viva!E Air Freshness system emits intensely-scented pure fragrance continuously, creating a permanently fresh environment that has fresh impact every time you walk into the room

*"The first thing I noticed when I walked in the room was the **fantastic scent.**"*

Consistent fragrance levels - guaranteed

Viva!E is designed and engineered to deliver consistent and continuous levels of fragrance and odour control for the full life of each refill.

oxy-gen™
POWERED

Unique Oxy-Gen Powered refill technology delivers precise doses of intense scent with no variation on delivery or drying out.

World's First Oxygen Powered Technology for Aircare

Most eco-friendly air freshener

Oxy-Gen Powered technology is a clean source of power, producing continuous levels of intense fragrance that contain no propellants, solvents or CFCs – just pure natural scent.

Carbon footprint approved product

In an independent process the Oxy-Gen Powered system has been assessed and verified for emissions and energy consumption and was found to have a significantly lower carbon footprint compared to aerosol products in the market.

“I know the washroom is clean, just because it smells so fresh.”

“It’s good to have an air freshening system that isn’t harmful to the environment.”

Top quality fragrances

Each fragrance has been selected for their intensity; each has been extensively tested for performance over the refill life; each has been field tested for popularity and appeal

A sophisticated fragrance that combines fresh apple notes with amber and spices

An uplifting blend of eucalyptus, rosemary and campher with leafy notes and crisp pine

An exotic floral scent of night flowering jasmine, orange blossom and gardenia

A warm and subtle combination of ripe berries for a juicy, fruity scent

A rich floral scent of orange blossom, jasmine and white flowers

A crisp floral scent that sparkles like fresh clean cotton

An exotic mix of pineapple, tropical fruits and coconut

A pure, clean fragrance of delicate florals and watery notes

A soft and warm fragrance highlighted by a white flower bouquet

A fruity fragrance of fresh watermelon with plum, peach, raspberry and crisp green apple

Better for the environment

Better for **freshness** **neutraLox** malodour eliminator

Most air fresheners work by masking bad odours with heavy perfume. The Viva!E Air Freshness system uses Neutra-Lox, a proprietary odour neutralising agent to eliminate any bad odours, instead of masking them, leaving only fresh scent in the air. Neutra-Lox effectively eliminates bad odours such as tobacco, kitchen odours, sweat, mildew, animal and body odours.

“Servicing Viva!E is so easy with no complicated programming. It takes just seconds to fit a new refill.”

- ! Refills are compliant with
 - > Californian Air Resources Board (CARB)
 - > REACH
 - > European Regulations
- and are also exempt from Swiss VOC taxes

- glee**
An invigorating scent of green apple and pear softened with peach and pineapple
- punch**
A tropical sensation that blends light fresh citrus with sweet mango and sun-ripened papaya

- zeal**
A vibrant, bubbly scent of lime, lemon and grapefruit
- glow**
A vibrant citrus mix of lemon and lime for a bright, uplifting scent

The world's most environmentally-friendly
air freshener that delivers
fresh scent and odour control
continuously for 60 days

Oxy-Gen Powered technology is a new medical-grade innovation that harnesses the power of pure oxygen to deliver **continuous, consistent ambient fragrance.**

- > No harmful emissions, solvents or propellants
- > Low VOCs mean it is ideal for green buildings and LEED certification requirements
- > Viva!E can reduce the amount of VOCs being emitted by up to 90% when compared to aerosol cans
- > The refill is 100% recyclable and safe to dispose of in your regular plastic recycling waste
- > Less waste, safer storage
- > Works against gravity so the fragrance oil won't pool or leak

VIVA!e™ best for the environment & performance

VIVA!™ Dispenser

Key lock

Vented sides for effective fragrance dispersal

Stylish cover design in a choice of 9 colours

Visual light indicators

provide refill and battery replacement reminders
